

# Sutter Amador Hospital

## About Us

Sutter Amador Hospital's rich history of providing care for residents of Amador County dates back as far as 1876. Today, the community based, not-for-profit Sutter Amador Hospital has 52 licensed beds and is the only hospital in Amador County serving a population of more than 40,000.

In February 2007, the adjacent 48,000 square foot outpatient facility opened allowing us to further expand our services and, at the same time, provide a full continuum of acute inpatient and outpatient services in one easy accessible location.

As a locally governed hospital, we are able to identify and invest in local needs. At the same time, our patients benefit from our affiliation with Sutter Health because we are able to share clinical resources and expertise with more than 3,400 doctors and 25 hospitals throughout Northern California.

## About Sutter Health

Serving patients and their families in more than 100 Northern California cities and towns, Sutter Health doctors, hospitals and other health care service providers join resources and share expertise to advance health care quality and access.

The Sutter Medical Network includes many of California's top-performing, highest quality physician organizations as measured annually by the Integrated Healthcare Organization. Sutter-affiliated hospitals are regional leaders in cardiac care, women's and children's services, cancer care, orthopedics and advanced patient safety technology.
